

C182 Introduction to IT Study Plan

1. Take the Pre-Assessment.
2. Review the Pre-Assessment Report (Coaching Report) and study the Competencies and Topics with Competent, Approaching Competence, and Unsatisfactory scores.
3. Read and engage in your online Introduction to IT course and take the end of module quizzes and score 90% or higher. (Highly Recommended)
4. Watch the Starting C182 video.
5. Watch the Course Review videos.
6. Study the IT Terminology flashcards.
7. Watch the Power Review Data Management video.
8. Watch the How to Pass the Assessment on the First Try video.
9. Take the Objective Assessment.

Pre-Assessment and Objective Assessment Differences

- Pre-Assessment - Tests memory and understanding of various IT disciplines like systems and services, network and security, scripting and programming, data management, the business of IT, and technologies in every area and how they relate to each other and the business.
- Objective Assessment - Tests application, execution, and implementation of IT knowledge to solve business and IT problems/opportunities in real-world *scenarios*.
